“Whether you die when you’re 20 or you die when you’re 80, it’s how you live your life in that time that makes the most difference.”

To the average person the thought of jumping from a building or structure would seem insane. BASE-jumping is a fast growing extreme sport that has already claimed the lives of over 270 participants.

With unique access to the top players in the BASE community, ‘The Exit Point’ explores the true thrill behind the sport, revealing why increasing numbers of people are willing to risk their lives for the short rush of a free-fall.

This documentary provides a rare insight and understanding of the men and women involved in the world’s most dangerous sport.
