

I WANT A GARDEN

16 X 25'

Each week award-winning gardener Diarmuid Gavin comes to the aid of families looking to revamp their backyards. However, it's up to the families to do all the work if they want to create the garden of their dreams. Diarmuid's design, creative flare and advice are all free of charge. However, each participant sets the brief, puts forward all the finance and then has to don the wellies as they set about creating the garden Diarmuid has designed for them.

The budgets and scale of the garden all vary in size and shape. From a big budget creation costing in excess of €100,000, a classic €30,000 retreat to a €5,005 student getaway. In each garden Diarmuid has used his maverick approach to backyard design to help the participants transform each garden into the outdoor living space of their dreams.

The maverick master of the gardening world - Diarmuid's distinctive gardening style has brought him worldwide acclaim. His philosophy is to examine the potential of every garden space he visits. His designs are interesting, uncompromising and aim to create unique outdoor living spaces that are functional and fabulous. Diarmuid runs a business in garden design and construction of modern gardens based in Dublin and London, with clients worldwide.
